## SARS-CoV-2 Rapid Antigen Test Kit

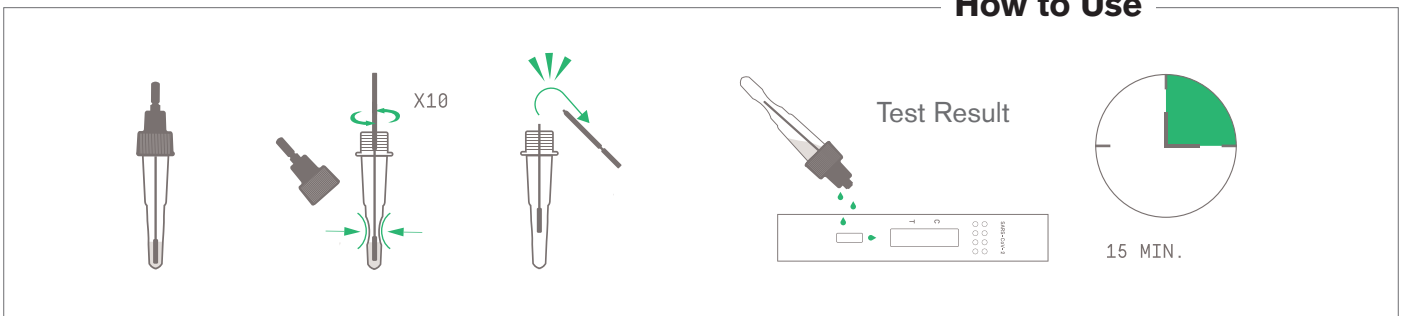

It is designed to detect SARS-CoV-2 antigen in nasal swab samples qualitatively.

### Avantages

- Variant detection including Omicron
- Easy procedure
- Early phase detector
- Accurate and rapid results

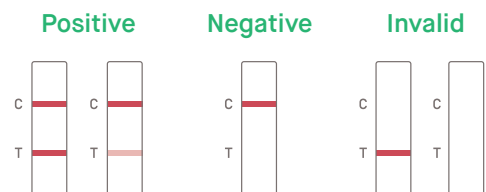

### How to Use

### Box Content

- Test cassette
- Extraction buffer tube
- Specimen collection swab
- Instructions for use (IFU)

### Interpretation

Cat. No	Target	Specimen	Kit Size	CE Status
VSCD02ST	SARS-CoV-2 Antigen	N	1/2/5T	1434
